

Make ebook purchases by putting in your cart and checking out.

Sending to your Kindle: After purchase, you will receive a completed order email. Select the “epub” to download. Find the book in your downloads and share by sending the file to your **kindle email address (that ends in @kindle.com)**. You may get an email from Amazon asking you to verify request and all you need to do is click the button to verify. The book should show up on your kindle not long after that. If it doesn’t show up right away, try restarting your kindle or syncing. After the book is downloaded, you can click on the book and the cover image will appear. Then, you’re ready to read!

Sending through your phone to Apple Books: After purchase, you will receive a completed order email. Select “epub” to download. Click download from phone. The download should go straight to your library in your Apple Books app. You can also “open to Apple Books” app.

If it still doesn’t show up, please contact **assistanttoauthorkwebster@gmail.com** so that we may assist you.

Thank you for reading!!
